Notes for A2 Permissions (AP-1.1)

Note #	Functional Notes
N/A	Users with the site.upd permission accessed this screen by clicking 'Assignments' from the list of tools on the left and then 'Permissions' from the list of links at the top of the frame.
1	Read assignments: - The system will display the list of assignments on the Assignment List screen (AL-1 or SVAL-1) to the role(s) with this permission. Users with this permission who do not have the Add, Edit, Remove or View Submissions permissions will see the Student View of the Assignment List screen (SVAL-1).
2	Submit assignments: - The system will provide the ability to submit assignments.
3	Add assignments: - The system will display the 'Add' link on the Assignment List screen (AL-1) to the role(s) with this permission.
4	Edit assignments: - The system will display the 'Edit' link on the Assignment List screen (AL-1) to the role(s) with this permission.
5	Remove assignments: - The system will display the 'Remove' buttons and the column of checkboxes on the Assignment List screen (AL-1) to the role(s) with this permission.
6	View Submissions: - The system will display the 'Grade' or 'Provide Feedback' link on the Assignment List screen (AL-1). - The system will display the 'Feedback' and 'Feedback Attachments' sections and the 'Save' and 'Save and Release Feedback' buttons on the View Student's Submission screen (VSS-1) .
7	View All Groups: - Upon enabling this permission for a role, the people in the assigned role will be granted the following permissions: * The system will display all assignments to the user regardless of group restrictions. * The user can only add assignments for all students and individual groups. * The user can edit assignments that have been released to all students or individual groups. Note: Users without this permission cannot edit an assignment if it is displayed both to a group of which he is a member and a group of which he is not a member. * The user can only remove all assignments. Note: Users without this permission cannot remove an assignment if it is displayed both to a group of which he is a member and a group of which he is not a member. * The user can only add feedback for all students.

Notes for A2 Permissions (AP-1.2)

Note #	Functional Notes
8	Grade submissions from: <ul style="list-style-type: none"> - This Gradebook permission controls whether or not the role(s) with this permission can enter a grade and comments for a submission. - If there is no Gradebook in the site, the system will not display this permission. - Roles with the 'Custom (Edit)' link have the section.role.ta permission and the gradebook.gradeSection permission. - If the Instructor clicks the 'Custom (Edit)' link, the system will display the Gradebook's 'Edit Grader Permissions' helper (GPH-1) - Roles with the 'All Students' setting may enter grades and comments for any student in the class. - Roles with the 'None' setting may not enter grades or comments for any submissions.
9	Save <ul style="list-style-type: none"> - Upon clicking Save, the system will save the changes to the permissions, return the user to the Assignment List screen (AL-1) and will display the following confirmation message to the instructor: "Your changes to the permissions were saved successfully."
10	Cancel <ul style="list-style-type: none"> - Upon clicking Cancel, the system will return the user to the Assignment List screen (AL-1) without saving any changes.

Grader Permission Settings

Grader permissions may only be set for users with the following roles as defined in Site Setup: AI/TA, Librarian+. By default, these users may grade anything within their assigned sections/groups. **Adding or modifying these rules overrides the default permissions and restricts their capabilities to the permissions that are defined below.** Delete all rules to revert to the default permission settings.

Notes for Grader Permissions Helper (GPH-1.1)

Note #	Functional Notes
N/A	The user accessed this screen by clicking the 'Custom (Edit)' link from the A2 Permissions screen (AP-1).
N/A	Default Permissions - By default, the AI/TA role and librarian+ role will have permission to grade those students in his/her assigned group(s). To change the default permissions, users with the site.upd permission may add Grader Permissions as described below.
1	Esc key or close - Upon clicking the 'close' link, the system will clear any changes, close the helper window and return the user to the A2 Permissions screen (AP-1).
2	Message - The system will display the following message to the user: "You are editing Gradebook permissions"
3	Select a Grader to Edit - Upon clicking the 'Select a grader to edit' drop-down, the system will display the list of users that have the section.role.ta permission and the gradebook.gradeSection permission. - Upon selecting a user from the drop-down, the system will display all rules associated with that user.
4	Permission - The permissions that may be granted to a grader are 'Grade' or 'View'. - If a user does not have the 'Grade' or 'View' permissions, then the system will not display the 'Gradebook Details' section on the View Student's Submission screen (VSS-1). - If a user has the 'Grade' permission, then the system will display an editable 'Gradebook Details' section on the View Student's Submission screen (VSS-1) for the group(s) and/or the category or categories the user has permission to grade. - If a user has the 'View' permission, then the system will display a non-editable 'Gradebook Details' section on the View Student's Submission screen (VSS-1) for the group(s) and/or the category or categories the user has permission to view.
5	Category Selector - The options available from the Category drop-down are 'All Categories' as well as all categories that have been created by the instructor. - If a user has permission to grade or view 'All Categories', then the user will see a 'Grade' link for all assignments that are linked to gradebook items which are assigned to a category or are in the Unassigned category. - If a user has permission to grade or view one or more individual categories, then the user will only see a 'Grade' link for those assignments that are linked to gradebook items which are assigned to the category or categories that the user has permission to grade or view. The user will not have access to assignments in the Unassigned category.

Notes for Grader Permissions Helper (GPH-1.2)

Note #	Functional Notes
6	Group Selector - The options available from the Groups drop-down are 'All Sections/Groups' and then a list of each group that has been created by the instructor or the system. - If a user has permission to grade or view All Sections/Groups, then the user will see a 'Grade' link for all assignments that are linked to gradebook items. If the user's permissions have been restricted by categories, see the Category Selector permission notes. - if a user has permission to grade or view one or more individual sections or groups, then the user will only see the 'Grade' link for an assignment that accepts submissions from the users in the groups the user has permission to grade or view.
7	Delete a Rule - If an instructor clicks the delete a rule icon (🚫), then the system will remove that rule for the associated user and the change will take place once the instructor clicks 'Save Changes'.
8	Add a Rule - If an instructor clicks 'Add a rule', then the system will add a new rule for the associated user with the following default settings: Permission: View, Category: All Categories, and Sections/Groups: All Sections/Groups.
9	Save Changes - Upon clicking 'Save Changes', the system will save any changes made to the rules for each user edited, close the helper window, and return the user to the A2 Permissions screen (AP-1).
10	Clear Changes - Upon clicking 'Clear Changes', the system will clear any changes made to the rules for each user edited, close the helper window, and return the user to the A2 Permissions screen (AP-1).

* Permission needed to see the 'Permissions' link:

- site.upd

* Permission(s) needed to see Instructor View:

- Add assignments AND/OR
- Edit assignments AND/OR
- Remove assignments AND/OR
- View Submissions

In the absence of one or more of the above permissions, the system will display the student view to the user.

* Permission(s) needed to see list of assignments in Instructor View:

- Add assignments AND/OR
- Edit assignments AND/OR
- Remove assignments AND/OR
- View Submissions

By default, the system will display assignments that have been released to all and/or to his/her assigned groups. The system will not display assignments that have been released to a group of which he/she is not a member.

If the user has one or more of the above permissions and the user has the 'View all groups' permission, then the system will display all assignments to the user regardless of which group the assignment has been released to.

* Permission needed to see 'Add' link:

- Add assignments

* Permission needed to see 'Edit' link:

- Edit assignments

By default, the system will display the 'Edit' link to a user for assignments that have been released to his/her assigned groups. The system will not display the 'Edit' link for assignments that have been released to all students unless the user has the 'Edit assignments' permission and the 'View all groups' permission, then the system will display the 'Edit' link for all assignments.

* Permission needed to see 'Duplicate' link:

- Edit assignments

By default, the system will display the 'Duplicate' link to a user for assignments that have been released to his/her groups. The system will not display the 'Duplicate' link for assignments that have been released to all unless the user has the 'Edit assignments' permission and the 'View all groups' permission, then the system will display the 'Duplicate' link for all assignments.

* Permission needed to see 'Grade' or 'Provide Feedback' link:

- View Submissions

By default, the system will display the 'Grade' or 'Provide Feedback' link to a user if the assignment has been released to all or to his/her assigned groups. The system will not display the 'Grade' or 'Provide Feedback' link if the assignment has been released to a group of which the user is not a member unless the user has the 'View Submissions' permission and the 'View all groups' permission, then the system will display the 'Grade' and/or 'Provide Feedback' link for all assignments.

* Permission needed to see 'In/New' column:

- View Submissions

By default, the system will display a value in the 'In/New' column to a user if the assignment has been released to all or to his/her assigned groups. The system will display a non-clickable 'N/A' value in the 'In/New' column for assignments that have been released to a group of which the user is not a member unless the user has the 'View Submissions' permission and the 'View all groups' permission, then the system will display the 'In/New' column for all assignments.

* Permission needed to see 'Remove' column:

- Remove Assignments

By default, the system will display a checkbox in the 'Remove' column to a user if the assignment has been released to his/her assigned groups. The system will not display a checkbox in the 'Remove' column if the assignment has been released to all unless the user has the 'Remove Assignments' permission and the 'View all Groups' permission, then the system will display a checkbox for all assignments.

* Permission needed to receive submission notifications:

- View Submissions

By default, the system will send a submission notification to a user if a submission was made by a student in one of his/her assigned group(s). If the user has the 'View Submissions' permission and the 'View All Groups' permission, then the user will receive submission notifications for all student submissions.

* Permission needed to see 'Retract Grades' link:

- gradebook.editAssignments

* Permission needed to see 'Retract All Student Feedback' link:

- View Submissions

By default, the system will only retract feedback for the students in a user's assigned groups unless the user has the 'View Submissions' permission and the 'View All Groups' permission, then the system will retract feedback for all students.

* Permission needed to see 'Download All' link:

- View Submissions

By default, the system will only download the submissions for the students in a user's assigned groups unless the user has the 'View Submissions' permission and the 'View All Groups' permission, then the system will download all student submissions.

* Permission needed to see AssignmentName-SiteID.csv file in Download folder:

- gradebook.gradeAll OR
- gradebook.gradeSection

Users with the gradebook.gradeAll permission will see all students in the site listed in the AssignmentName-SiteID.csv file. Users with the gradebook.gradeSection permission will only see students in his/her assigned group(s) in this file unless grader permissions have been set, in which case those permissions would override the gradebook.gradeSection permission.

* Permission needed to see 'Upload Grades and Feedback' link:

- View Submissions

* Permission needed to upload feedback:

By default, the system will only allow a user to upload feedback for the students in a user's assigned groups unless the user has the 'View Submissions' permission and the 'View All Groups' permission, then the system will allow the user to upload feedback for all students.

* Permission needed to upload grades:

- gradebook.gradeAll OR
- gradebook.gradeSection

Users with the gradebook.gradeAll permission will have permission to upload grades and comments for all students in the site. Users with the gradebook.gradeSection permission will only have permission to upload grades and comments for students in his/her assigned groups unless grader permissions have been set, in which case those permissions would override the gradebook.gradeSection permission.

* Permission needed to see 'All Sections/Groups' in View drop-down on View Graded Submissions (VGS-1) or View Ungraded Submissions (VUS-1) screen:

- View Submissions AND
- View All Groups

If a user does not have the 'View All Groups' permission, then the user will see his/her assigned groups listed in the View drop-down.

* Permission needed to see list of students:

- View Submissions

By default, the system will display the students in the user's assigned groups unless the user has the 'View Submissions' permission and the 'View All Groups' permission, then the system will display all students in the site.

* Permissions needed to see grade in 'Grade' column:

- gradebook.gradeAll OR
- gradebook.gradeSection

Users with the gradebook.gradeAll permission will have permission to view grades for all students in the site. Users with the gradebook.gradeSection permission will only have permission to view grades for students in his/her assigned groups.

Please note that the system will be looking at the 'View Submissions' and 'View All Groups' permissions to determine which students to display to the user and then the system will look for the gradebook.gradeAll or gradebook.gradeSection permission to determine if the user has permission to view the grades for those students.

* Permissions needed to see 'Apply grade to all ungraded' text box:

- gradebook.gradeAll OR
- gradebook.gradeSection

Users with the gradebook.gradeAll permission will have permission to apply a grade for all ungraded students. Users with the gradebook.gradeSection permission will have permission to apply a grade to the ungraded students in his/her assigned groups.

Please note that the system will be looking at the 'View Submissions' and 'View All Groups' permissions to determine which students to display to the user and then the system will look for the gradebook.gradeAll or gradebook.gradeSection permission to determine if the user has permission to view the grades for those students.

* Permission needed to see Gradebook Details section for all students on View Student's Submission screen (VSS-1):

- gradebook.gradeAll OR
- gradebook.gradeSection

Users with the gradebook.gradeAll permission will have permission to view and edit the Gradebook Details section for all students. Users with the gradebook.gradeSection permission will have permission to view and edit the Gradebook Details section for all students in his/her assigned groups.

Please note that the system will be looking at the 'View Submissions' and 'View All Groups' permissions to determine which students to display to the user and then the system will look for the gradebook.gradeAll or gradebook.gradeSection permission to determine if the user has permission to view the grades for those students.
