Notes for AA: Add Model Answer (AMA-3.1)

Notes

- The instructor accessed this screen by clicking the 'Add' link next to Model Answer on the Add Assignment screen (AA-2).

Supplemental Information
- Upon deselecting the checkbox next to 'Model Answer?', the system will collapse the Model Answer section.
- Upon clicking 'Add' next to Attachments, the system will display the AMA: Add Attachment Helper screen (AMAAAH-1).
- Upon clicking the drop-down next to 'Display to Students', the system will display the options shown on the Add Model Answer screen (AMA-1).
- By default, the system will set the 'Display to student?' option to 'After student submits assignment'.
- Rules for 'Display to student' options:
     * Never:
        - System will never display model answer to student.
     * Immediately:
        - System will display model answer to student on assignment's Open Date.
     * After student submits assignment:
        - Once submission has been received by the instructor, the system will display the model answer to the student upon viewing the submission on either the SV: One Submission (SVOS-1) screen or the SV: Multiple Submissions (SVMS-1) screen.
        - If 'Require submissions?' is not checked, the system will not display this option.
        - If instructor deselects 'Require submissions?' after selecting this option, the system will auto-select 'Immediately' and display the following inline message: "Submissions are no longer required. Please verify the option selected for you.", similar to what is shown on the AMA: Error screen (AMAE-1).
     * After feedback is released to student:
        - Once instructor has has released feedback to the student, the system will display the model answer to the student upon viewing the SV: View Instructor Feedback - One Submission (VIFOS-1).
        - If 'Require submissions?' is not selected, the system will not display this option.
        - If instructor deselects 'Require submissions?' after selecting this option, the system will auto-select 'Immediately' and display the following inline message: "Submissions are no longer required. Please verify the option selected for you.", similar to what is shown on the AMA: Error screen (AMAE-1).
     * After due date has passed:
        - Once the due date has passed, the system will display the model answer to the student upon viewing the submission on either the SV: One Submission (SVOS-1) screen or the SV: Multiple Submissions (SVMS-1) screen.
        - If 'Require submissions?' is not selected, the system will not display this option.
        - If 'Set Due Date?' is not selected, the system will not display this option.
        - If instructor deselects 'Require submissions?' after selecting this option, the system will auto-select 'Immediately' and display the following inline message: "Submissions are no longer required. Please verify the option selected for you.", similar to what is shown on the AMA: Error screen (AMAE-1).
        - If instructor deselects 'Set Due Date?' after selecting this option, the system will auto-select 'Never' and display the following inline message: "Due date has been removed. Please verify the option selected for you.", similar to what is shown on the AMA: Error screen (AMAE-1).

Notes for AA: Add Model Answer (AMA-3.2)

Notes

Supplemental Information (cont.)
- Rules for 'Display to student' options (cont.):
  * After accept until date has passed:
    - Once the accept until date has passed, the system will display the model answer to the student upon viewing the submission on either the SV: One Submission (SVOS-1) screen or the SV: Multiple Submissions (SVMS-1) screen.
    - If 'Require submissions?' is not selected, the system will not display this option.
    - If 'Set Accept Until Date' is not selected, the system will not display this option.
    - If instructor deselects 'Require submissions?' after selecting this option, the system will auto-select 'Immediately' and display the following inline message: "Submissions are no longer required. Please verify the option selected for you.", similar to what is shown on the AMA: Error screen (AMAE-1).
    - If instructor deselects 'Set Accept Until Date?' after selecting this option, the system will auto-select 'Never' and display the following inline message: "Accept until date has been removed. Please verify the option selected for you.", similar to what is shown on the AMA: Error screen (AMAE-1).

Save
- Upon clicking 'Save', the system will perform the checks described in the notes for the Add Assignment screen (AA-1) as well as the check listed below. If any one of these checks does not pass, the system will display the following message at the top of the form using the validation class, in addition to the message provided for each check: "There were problems saving your assignment. Please see below for details."
  * If the instructor has selected 'Model Answer?' under the Supplemental Information section, the system will check to see if the instructor has provided either model answer text or an attachment. If the instructor has not provided model answer text or an attachment, then the system will display the following error message using the alertMessageInline class: "You must provide model answer text or an attachment."
- Once all of the checks have passed, the system will save the form data, return the user to the Assignment List screen (AL-1) and display the following confirmation message to the instructor: "Your assignment was saved successfully."

Save as Draft
- Upon clicking 'Save as Draft', the system will perform the checks described in the notes for the Add Assignment screen (AA-1) as well as the check listed below. If any one of these checks does not pass, the system will display the following message at the top of the form using the validation class, in addition to the message provided for each check: There were problems saving your assignment. Please see below for details.
  * If the instructor has selected 'Model Answer?' under the Supplemental Information section, the system will check to see if the instructor has provided either model answer text or an attachment. If the instructor has not provided model answer text or an attachment, then the system will display the following error message using the alertMessageInline class: "You must provide model answer text or an attachment."
- Once all of the checks have passed, the system will save the form data, return the user to the Assignment List screen (AL-1) and will display the following confirmation message to the instructor: "Your assignment was saved successfully in draft status."

Notes for AA: Add Model Answer (AMA-3.3)

Notes

Preview as Student
- Upon clicking 'Preview as Student', the system will perform the checks described in the notes for the Add Assignment screen (AA-1) as well as the check listed below. If any one of these checks does not pass, the system will display the following message at the top of the form using the validation class, in addition to the message provided for each check: There were problems saving your assignment. Please see below for details.
    * If the instructor has selected 'Model Answer?' under the Supplemental Information section, the system will check to see if the instructor has provided either model answer text or an attachment. If the instructor has not provided model answer text or an attachment, then the system will display the following error message using the alertMessageInline class: "You must provide model answer text or an attachment."
- Once all of the checks have passed, the system will display the Preview as Student screen (PS-1) to the instructor.
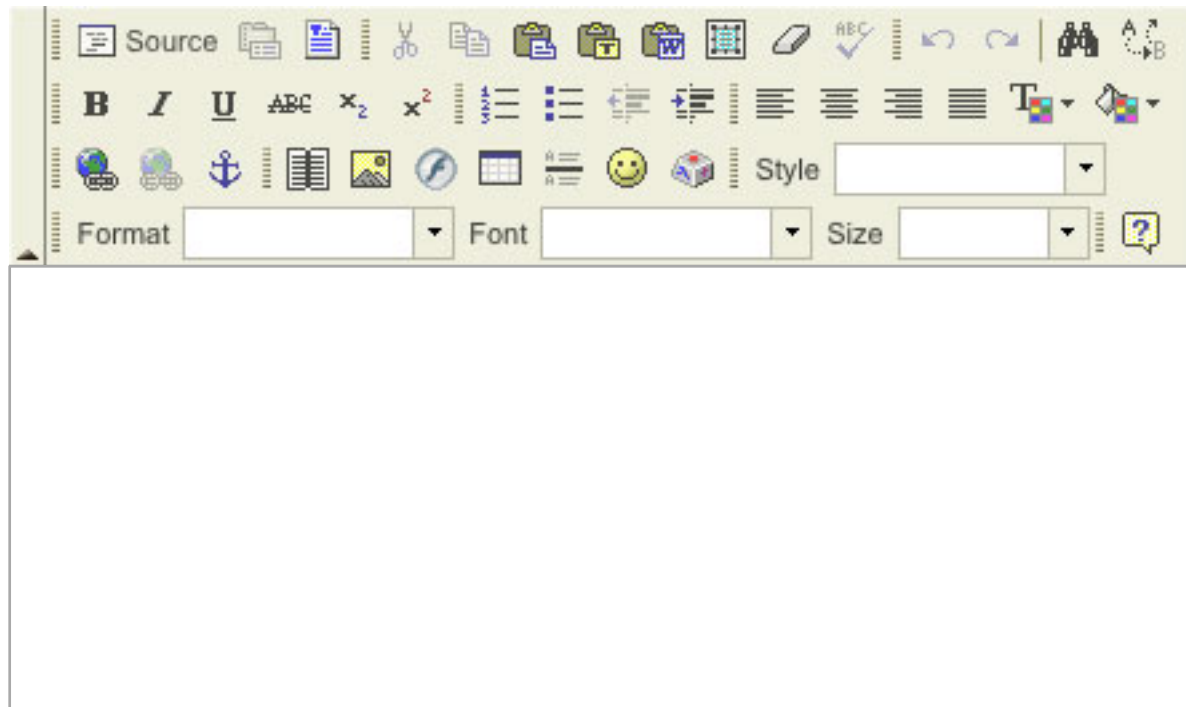

Cancel
- If the instructor clicks Cancel, the system will return the instructor to the Assignment List screen (AL-1) without saving any changes.

Submitted Text

Indiana University is currently looking for a talented and highly motivated Visual Media Instructor for our Recording Artist Program.

Indiana University has a top-ranked school of music located in Bloomington, Indiana. Our students arrive with a passion for music and leave with the practical knowledge, technical skills and hands-on experience that it takes to transform their aspirations into careers.

The successful candidate will be able to develop and teach an introductory course in visual media to independent musicians. This program is aimed at musicians who want to record and release their own music (Students will learn about recording and general music business concepts in other classes).

Submitted Text

I think Michael Moore's "Bowling for Columbine" is the best documentary I've ever seen. Moore takes on the subject of guns in America, but it seems to me the film is really more about the larger topic of the country's so-called culture of violence. He doesn't get into specific public-policy issues; instead he presents some freewheeling reflections on why so many Americans are killed with guns.

Moore's dark humor made me laugh a lot while watching the movie, but he did leave me pondering certain aspects of American history, mass media, and racial tension. While I don't entirely endorse Moore's views and methods, I found "Bowling for Columbine" to be well worth watching.
