Notes for Add Assignment (AA-3.1)

Note #	Functional Notes
N/A	The user accessed this screen by clicking 'Add' from the Assignment List screen.
1	**Supported Formats:** Upon clicking 'Supported Formats?', the system will display a dhtml popup that includes the following text: "Supported submission formats include: MS Word, WordPerfect, RTF, PDF, PostScript, HTML, and plain text (.txt)"
2	**Submit papers to the following repository:** - The system will display two options: None or Indiana University repository. - If the instructor chooses 'None', the system will not submit the assignment's submissions to a repository. - If the instructor chooses 'Indiana University repository', the system will submit the assignment's submissions to the Indiana University repository.
3	**Generate Originality Reports:** - If a due date has been set, the system will display the following options for generating a report: 'Immediately' and 'On Due Date'. - If a due date has not been set, the system will select 'Immediately', disable the controls for 'Immediately' and 'On Due Date' and display '(No due date has been set by the instructor)' to the right of 'Immediately'.
4	**Generate Originality Reports (Immediately):** If this option is selected, the system will display the originality report to the instructor as soon as the report is available. If 'Allow students to see originality reports' is selected, then the student will also see the report immediately.
5	**Generate Originality Reports (On Due Date):** - If this option is selected, the system will display the originality report to the instructor once the due date has passed and the report is available. If 'Allow students to see originality reports' is selected, then the student will also see the report once the due date has passed. - The system will display the originality report immediately for any submissions made after the due date has passed.
6	**Allow students to see originality reports:** If this option is selected, the system will display the originality report to the student either 'Immediately' or 'On Due Date' according to the setting set by the instructor for 'Generate Originality Reports'.
7	**Check originality against:** - The instructor is required to select at least one source to check originality against. - If the instructor has not selected a source upon clicking Save, then the system will display the following message, to the right of 'Check originality against', using the 'messageError' class: 'Please select at least one source.'

The word duck comes from Old English *dūce, a derivative of the verb *dūcan "to duck, bend down low as if to get under something, or dive", because of the way many species in the dabbling duck group feed by upending; compare with Dutch duiken and German tauchen "to dive". This word replaced Old English æned "duck", favored by æned presumably developing into a homophone of the outcome of Old English ende "end". Other Germanic languages still have similar words for "duck", for example, Dutch eend "duck" and German Ente "duck". The word æned was inherited form Proto-Indo-European; compare: Latin anas "duck", Lithuanian ántis "duck", Ancient Greek nēssa/nētta (νῆσσα, νήττα) "duck", and Sanskrit ātí "water bird", among others.
